Kindred Create is a hands-on program where creativity comes to life through a range of engaging, tactile projects. Projects include air-dry clay creations, tie-dye, beading, printmaking, soap carvings, jewellery dishes, paper mâché creations, and simple sewing.

The program is designed and facilitated by experienced, qualified teachers within a calm, welcoming environment that encourages experimentation and self-expression. Students attend for the full week, allowing time to develop, refine, and complete their projects.
